ABOUT ME

Innovative Third year B.Tech student with a passion for technology-driven healthcare transformation and AI-powered solutions. Skilled in problem-solving, data analysis, and collaborative teamwork, with hands-on exposure to programming, cybersecurity, and system design. Adept at quickly adapting to dynamic environments, engaging with global teams, and contributing to real-world healthcare workflows. Known for strong communication skills, cultural adaptability, and a growth mindset, I bring the ability to connect care with code, blending technical expertise with human empathy.

PROJECTS

**Online E-
Commerce
Website**

An online e-commerce website is a digital platform that enables businesses and individuals to buy and sell products or services over the internet. It acts as a virtual marketplace where customers can browse through categories, view product details, compare prices, and make secure purchases from the comfort of their homes.

Nov-dec 2023

**Fitness tracking
System**

A Fitness Tracking System is a digital solution designed to monitor, record, and analyze an individual's health and fitness activities. It helps users set fitness goals, track daily progress, and maintain a healthy lifestyle through data-driven insights.
